POSTOFFICE HOURS.

S. A. M. to 7 P. M.
SUNDAYS.
6 P. M. to 7 P. M.

No money orders issued or letters registered after 6:30 P. M. and none on Sundays.

JOHN SHIER, P. M.

Local Intelligence.

They are coming!

See P. C. M. & R. Co.'s ad in another column.

Valentines! Valentines! Valentines!!! at Shier's.

A Bottle of Trib should be in every household.

Shier is in receipt of a fine lot of Valentines; neat, unique and pretty.

Robert Adams, one of our old time standbys, arrived by yesterday's stage.

They will soon be here?

Take your valentines with you to the dance Monday night.

A bottle of Trib should be in every household.

Our streets are filled with sufficient snow and mud to suit the taste of the most fastidious.

The recent heavy fall of snow has delayed the mail running between Pioche and Milford nearly twenty four hours.

W. S. Godbe left for New York Sunday. He will probably stay over a few days at Salt Lake City.

The thermometer for the past week has stood at about twenty degrees above zero between the hours of two A. M. and six A. M.

The heavy fall of snow has been a boon to our youngsters who have a coasting run from the Pioche Hotel to the lower corral.

Don't forget there is to be a dance on Monday night at Brown's Hall.

The Elko Independent says: Counterfeit silver coins are in circulation at Carson right under the noses of the Mint officials.

R. A. Martin and Co. are now to be found in their new quarters one door North of the Godbe Mercantile Co's store. Don't fail to give them a call.

A. W. Keyser and Patrick Devlin who have been visiting relatives in the East, returned last week, and are now to be seen at their respective places of business.

F. A. Clark is authority for the news that a social dance has been arranged for Monday evening at Brown's Hall. Usual prices for admittance will be charged. Valentines in order.

Allen Nelson one of Panaca's oldest standbys, was in town this week. After paying the Record a visit and taking a year's subscription he again left for the land of green trees and grass.

George Warren, who has been suffering from a severe attack of la grippe for the past two weeks is now slowly but surely recovering. George has our sympathy. We have had it ourselves.

Several of the Smelter hands in going to and from the smelter give the graveyard a wide berth, preferring to be held up by robbers rather than meet some ethereal vision whose only clothing is a garment of mist.

Since the recent change in the time of the Hiko-Pioche mail, the hours of arriving and departing to and from Pioche are as follows: Leaves Pioche at ten A. M. on Wednesdays and Saturdays and arrives at six P. M. on Tuesdays and Fridays.

L. E. Pollard, engineer at the Mendha mine is in town under Dr. Crowder's treatment for a very lame neck. Louis will return to his post at the mine shortly and take with him the best wishes of several of his old time friends from White Pine as also those whom he has acquired during his stay here.

Several men at the Day mine insisted upon getting drunk last pay day instead of attending to their work and lost their jobs as a consequence. Beware boys how you handle the juice of the bug and fiddle the tiger's caudal appendage, for the snow upon the road lies deep and the way is long to a land of brightness, and ere thou reachest it thou shalt often times wish to partake of the lunch that is free.

We are glad to state that once more the Liberals of Salt Lake county have gained a glorious victory over their mormon and semi-mormon political opponents. The exact returns we do not yet know, but enough is learned to indicate a sweeping majority. We are pleased also to state that Charley Stanton, one of our Pioche raised boys, is by this victory elected to the office of county Recorder. Charlie is a trump and we wish him all success.

Henry Maguire, an old time California and Nevada prospector, called at the Record office Saturday for a copy of the Record and the news of the world which we supplied to him. He is at work on the "Parrell" claim three miles south of Jack Rabbit on the side of the mountain when the weather will permit, but the snow is now so deep and the weather so stormy that Mr. Maguire says he spends most of the time in his cabin praying for the passage of a free coinage bill.

A SECRET LODE.

A PIOCHE MINER HAS THE GOOD FORTUNE TO MAKE A PROMISING DISCOVERY.

A SPANIARDS MINE

He Told of His Secret Discovery to Dr. Benedict at a Salt Lake Hospital. The Doctor Failed to Find It But Paved the Way to Its Being Found. Two Kinds of Mining Men.

After two years the Spaniard's secret mining lode has been uncovered by a Pioche prospector, and beautiful, as well as rich lead specimens, have been brought in from the vein.

Henry Tranter is the lucky man who, two years ago found the lode; has since traced it to its source and stripped the surface from its promising face.

He paid the Bureau a visit last week in search of mining location notices and left the next day for his promising spot.

There is a little history connected with this mine which is similar to that of the famous BUREAU GOLD MINE SECRET.

A spaniard, some years ago was prospecting in Barnet Canyon, a place about twelve miles from Pioche toward Jack-rabbit. He discovered a ledge, all traces of which he carefully recovered, and only brought specimens to show the quality of his location. After showing them to a few without disclosing the place where they came from, he departed for Salt Lake City for his health and finally landed in the St. Mary's hospital where he died. But ere his lips were sealed he told his secret mining location to Dr. J. M. Benedict.

It is just about two years ago when Benedict, acting on the information he had received, sent two good prospectors down to the place to locate it for him. Their movements were carefully watched.

By two Pioche miners until they also knew as much about the location as their Salt Lake contemporaries. Benedict's men failed to find anything, and Mr. Tranter was able to find nothing but promising float. Last year he hunted again, but float was all that rewarded his efforts.

Undaunted by previous failures Mr. T. started in this year as soon as the snow would permit and finally succeeded in tracing the precious metal to its hiding place, which was in a secluded corner covered by underbrush.

He stripped the brush and earthy matter and uncovered a

NINE FOOT FACE OF ORE.

He broke off samples that were identical with those brought in by the spaniard, armed himself with location notices and departed hence as stated above.

What the outcome of it all may be we are of course unable to say, but judging from the samples and report the discovery is apt to prove one of no minor importance.

Highland.

Henry Turner and Henry Welland are partners in a mine but differ in their opinions concerning it. The writer had the following conversations with each of them. "Well, Mr. Turner, how does the mine look by this time?" "Not a thing to be seen; can't tell the first thing about it until we get down about fifty feet more, cross-cut and drift; it's a fair prospect, but as I said before we can't tell the first thing about it as yet."

"That's the lay out then is it?" "That's just it."

Soon afterwards seeing a fine team drawing a wagon loaded down with provisions, starting toward Highland from Welland's store, the writer remarked, "Where are they going Henry?" "Out to the mine of course."

"Well, judging from the size of the load you must be going to employ a regiment of men out there." "You are just right," came the joyful response, "we mean to take out a whole lot of stuff; don't believe in storing up our treasures; we have made one shipment already." "How did it go?" "Seventy five ounces silver and seventy per cent. lead." "Can I see a copy of the returns?" "Not much, not till we get in our bid from the P. C. M. & R. Co." "How does the mine look?" "Bang up, go out and see it; the biggest thing in the country." Which is right?

GOOD IF TRUE.

OPERATIONS ON THE UNION PACIFIC EXTENSION TO

PIOCHE TO BE RESUMED.

The Beaver Unionian is positively responsible for the news that it is said to have been recently reiterated by an unknown, that somebody thought likely that at some time or other, if not sooner, the extension of the railroad from Milford to Pioche, would possibly be resumed; and as a further confirmation, that the visit of Mr. Kilpatrick formerly of the firm Kilpatrick Bros. & Collins, who is rumored to be daily expected to arrive at Milford, might in some way be construed to be in connection with this matter.

It will go hard with the Unionian if things should turn out differently.

"Doc" Meeks met with a severe accident last Monday as he was coming down Main Street past Nesbitt's store. The whole surface of the sidewalk was a sheet of ice and coming down the slant it was nearly impossible to keep one's feet. His fall resulted in a severe bruise on the wrist which will cripple his left arm for some weeks.

Diphtheria and Croup.

As there seems to be considerable doubt existing here as to just what diphtheria is; whether this child, or that child has it or not, and what causes the disease, it appears to be our duty to explain.

The symptoms of the simple variety are so mild at first as to excite little complaint, beyond a little difficulty in swallowing, or pain in the throat, burning skin, pains in the limbs, etc., and it should be easily cured.

Malignant diphtheria is ushered in with severe fever, rigors, vomiting, or purging, sudden great prostration and restlessness, anxious countenance, etc., which certainly point to some overwhelming disease, under which the system is laboring. The skin is hot, the face flushed, the throat sore and the mucous membrane bright red; the tonsils are swollen, and grey and white patches of deposit appear on them, small at first, but gradually enlarging, so that one patch emerges into another, forming a false membrane in the throat, rendering swallowing and even breathing difficult.

The main differences between diphtheria and croup are these. In diphtheria there is a forewarning illness, shivering and fever, with sore throat, without the warning cough. The membrane begins at the top of the throat and extends downward. In croup there is always a hoarse metallic cough without the previous illness; the disease is sometimes preceded by catarrhal symptoms which extend upwards from the chest to the upper part of the wind-pipe.

Diphtheria is caused from impure air, imperfect drainage, living too near manure deposits, slaughter houses, or where animal substances are in a state of decomposition. It commonly occurs as an epidemic, and a solitary case may prove a centre for spreading the disease.

So far in Pioche there have been only two or three cases, but if different steps are not taken to stop the spread, and a vigorous step made to rectify the filthy sanitary condition of the town, we are most apt to have an epidemic.

To Tax Payers.

The readers of the Record will know all that has been said and done in Pioche about the extra ten per cent. tax, impartially levied upon us by the State Board of Assessors and Equalization, but for the benefit of those who have not kept track of the subject the following facts are again brought forward.

Last November and December the taxpayers of Lincoln county had their financial calculations knocked crooked, and a great many had to go and restate their purses in order to meet this extra tax. At the time, we printed the following lot:

"The extra tax of ten per cent. levied by the State Board of Equalization at Carson met with general disapproval; not to say a vigorous kick. The citizens should have paid it under protest and then employed a lawyer to test the constitutionality of the act. The Board has no doubt over-stepped its jurisdiction in this matter and it would only take about \$200 to test the constitutionality of the law and the action of the Board under it."

The next week we printed the following facts under the heading, Extra Tax Annulled. It related to the Idaho Supreme Court decision in the same matter of taxation; date, Dec. 11.

"A decision in the case of the County Commissioners of Bingham county, (Idaho), vs. the State Board of Equalization was handed down by the Supreme Court to-day which annulled the action of the Board and virtually declares all their proceedings open to question, and paves the way to numerous other suits of the same character."

They beat it and why cannot we?

The next report was made when the knowledge came to us that Hon. Geo. S. Sawyer had started suit to test the legal existence of the Board, and the constitutional validity of the act creating it, as well as the legality of their acts. At this time we noted the injustice it would be on our part to allow Mr. Sawyer to fight the battle alone, and then come forward to reap the benefits to be derived by a successful ultimatum.

Just as we were commencing to think our efforts had all been in vain and our writing had found no readers; one of our loyal citizens came to us, upheld the Record's ideas to support Mr. Sawyer in his actions, and said "I am ready to head any list of that kind with twenty dollars at any time." This gives us courage to go on rehearse the affair and ask who's the next man?

PRESENTS AND PRESENCE.

The Mamma Was't in it With the Prospective Son-in-law. She Will be Soon. A few Words to the Boys.

Two or three young gentlemen of Pioche having duly been made the recipients of wedding invitations from the bride's mother to be present at the spicing, left for Jackrabbit last week. With parcels in hand and many a committed toast to be sung as the wine went around they meandered to the scene of action.

Well to cut a long story short, the groom met them at the door, accepted their presents, but made stick his vigorous objection to their presence. See the point presents-presence similar but different, spelled differently.

Just a word further to the dear boys.

Now young men just make a minute of this tale of woe and gloom.

Don't think a mother's word is in it. Against that of a groom.

Her time will come around very soon. And she will use her jaw.

When angel wings have sunk in gloom And she's a mother-in-law.

NOTICE is hereby given that I will not be responsible for any bills or indebtedness contracted by Margaret McDonald.

(Signed) ROBERT MC DONALD.

BROKE HIS NECK.

JAMES O'BRIEN, A JACK RABBIT MINER FOUND DEAD IN HIS CELLAR.

HEAD DOWNWARD.

He Had Been on a Protracted Spree, and Fell into his Cellar With Fatal Results. The Coroner Dispatched For.

The news has reached us through the mediumship of Wm. Bishop that Jim O'Brien was found dead last night by some other miners at Jack Rabbit. He had been on a protracted spree for some time and when last seen had gone to his cabin. Not seeing him as was expected, some of the mine boys went on an investigation lay out to his apartments where a

HORRIBLE SIGHT

was awaiting them.

O'Brien was not to be seen in his sleeping apartments but a few steps farther on the open door of his cellar attracted their attention. There they found him with his neck completely broken by a fall from the room above; his feet still in the air were lodged against the steps.

There could have been no struggle; death was instantaneous. He probably fell against the door leading to the cellar which gave way under the load.

The Coroner has gone to make a thorough investigation.

Death of "Gussie" Werner.

We are pained that it has become our duty to announce the untimely death of our dear little friend, August Werner, whose lips were sealed last Friday night by that terrible destroyer and enemy of children, diphtheria.

Cruel death, whose seeming aim is to claim for its victim one who cannot well be spared, made no exception in this instance to the rule.

"Gussie" had not lived more than eight years, but in that time he had made a place in the hearts of all who knew him that no other seems qualified to fill. We know that he was wisely chosen and that Heaven is made brighter by our loss; yet, we cannot but feel how much better could have been spared some one of less virtue; that no more will the gentle love and laughing little face gladden the hearts of his schoolmates; that those men both rough and kind will look in vain for the happy little boy they used to watch go by; and that the father, mother and sisters are suffering untold grief from his loss.

The funeral took place from the Catholic Church, at 2 P. M. Sunday and was followed to the Catholic burying ground, where amid tears and weeping the remains were interred.

Oh death! your cruel iron grasp Our little friend has moved;

You've rent ajar our friendly clasp, And love so fully proved.

Yet death, to the, my words are said; Thy victims of this life Will live again, when thou art dead, Forget, thy earthly strife.

STILL ON THE ROAD.

Flattering Success of the Mushroom Minstrel Troupe in Their Tour Around the World. They Show at Beaver.

The Beaver Unionian of Feb'y 5th gives them the following send off gratis.

The Sands & West, San Francisco Variety Combine, gave a genuine spide performance last Tuesday evening. The company consisted of four very weak performers with weaker ability, except in the way of skipping the town and leaving their creditors in the soup. We have yet to learn of a single bill the combine paid. They run their "jaw" for everything. After the show on the evening named they left their effects, consisting of two pairs of ragged pants and a ragged coat as security for half rent. Joe says it don't pay for "hile."

On Wednesday they left one of their men in town strapped and started out on foot for pastures (not more green for that would be hard to find) lying towards the west. They want to be watched by the people and given a wide berth. They should be hauled in for obtaining money under false pretenses, and failing to pay it out on just indebtedness. Look out for the humbugs, the frauds and the swindlers.

Alike.

We are bound to notice the marked similarity that exists between the editorial writing of the Salt Lake Tribune and that of the Carson News. They both had a gentleman write them asking their opinion as to "the benefits of adversity" and their replies are so similar word for word that we can't but notice it. However it isn't our fight and we therefore point the similarity out to the Tribune. It will certainly make its editor laugh, especially if the gentleman writing him was a fictitious one.

A Card.

We extend our heartfelt thanks to the numerous friends who so nobly assisted us during the late illness of our son August.

Mr. and Mrs. August Werner.

NOTICE.—We invite your attention to our elegant stock of FURNITURE complete in every line, including the best assortment of Folding Beds, Springs and Mattresses in the West. Direct your orders for any kind of house fittings to BARRETT BROS., Salt Lake City, Utah.

Don't be in a hurry for they will soon surprise you.

OFFICE OF JAMES SULLIVAN, GRAND RECEIVER A. O. U. W., ROOMS 16 AND 17, GOLD BLOCK, HELENA, MONT., DEC. 14, 1901.

To the Individual Membership of the A. O. U. W.:

For many years it has been the custom of several of the large Fraternities to make the meeting of their National bodies a time and place of general assemblage of the order, irrespective of rank or station.

The next session of the Supreme Lodge, A. O. U. W., will be the first meeting thereof ever held in the Great West. It is to meet at Helena, Montana, in the heart of the great Inter-Mountain District of the United States. The Supreme Lodge meets here in response to invitations from the Grand Lodge A. O. U. W. Montana, the Governor of our State, the Mayor and Board of Trade of our city, which movement is concurred in by the people of Montana generally.

Ample arrangements will be made for the accommodation of all who may be present, at reasonable rates, and entertainment furnished for persons who will take advantage of this invitation.

Reduced rates will be made, some already ordered, of a one fare rate from all parts of the United States and Canada to Helena and return. Eastern visitors will have the option of reaching Montana via Chicago, St. Paul and Minneapolis, and returning via Ogden, Salt Lake, Denver, Kansas City and Omaha, or by the reverse trip, entering by the latter points, and returning via St. Paul and Minneapolis.

Western visitors will have the straight one fare rates from all Pacific Coast points to Helena, and returning via Portland, Tacoma, Ogden or Salt Lake.

Special reduced rates will be made for trips through the National Park—"The Wonder Land of America"—distant from Helena only about one hundred and twenty-five miles.

In behalf of the people of Montana, in whose name we are authorized to act in this matter, we extend to every Workmen of our Order a cordial invitation to visit Helena in June next, with their families, assuring all of a hearty welcome and a fraternal reception, and as great a variety of entertainments as your time will permit you to enjoy.

Let there be a general assemblage of Workmen at that occasion, and we feel warranted in assuring you all that, aside from the personal satisfaction each of you will receive in participating in such a meeting, the Order will be greatly benefited thereby.

By order of the Montana General Committee.

JAS. SULLIVAN, Chairman.

NEW TO-DAY.

Notice of Forfeiture.

TO JOSEPH A. CLARK AND RUSSEL FULLER, EXECUTORS, ADMINISTRATORS, and parties claiming under, from, by or through them:

You are hereby notified that the undersigned, co-owner with you in the mining claim known as the "King Flaser" mine, situated in Jack-rabbit Mining district, County of Lincoln, State of Nevada, has performed the work and made the expenditures on said mining claim, required by section 2324 of the Revised Statutes of the United States, to hold the same for the years 1898, 1899, 1900, and 1901, and the amount due from you, your grantees, assigns or administrators, etc., on account of such expenditures on said mining claim are as follows:

Joseph A. Clark—Twenty-six \$5 00 (\$26 00-100) dollars.

Russel Fuller—Thirteen \$3 00 (\$13 00-100) dollars.

And if within ninety days after the publication of this notice, you fail or refuse to contribute your said proportion of such expenditures as co-owner, your interest in said claim will become the property of the subscriber under said section 2324.

JAS. McFADDEN, Pioche, Nev., Feb. 11th, 1929.

LOST.

Two saddle horses. One buckskin horse, BK combined on right hip; has a bell on; also one sorrel horse branded H on the hip. A reward of \$10 will be paid to the finder of the above horses, to be left at Joe Cook's stable. J. J. MATLI.

Notice of Forfeiture.

TO D. R. CADWELL, HIS GRANTEES, ASSIGNS, heirs, executors, or administrators, and all parties claiming under, from, by or through him:

You are hereby notified that the undersigned, co-owner with you in the mining claim known as the "North Star" mine, situated in Big Mining district, County of Lincoln, State of Nevada, has performed the work and made the expenditures on said mining claim, required by section 2324 of the Revised Statutes of the United States, to hold the same for the year 1901, and the amount due from you, your grantees, assigns or administrators, etc., on account of such expenditures on said mining claim is the sum of thirty-three \$3 00 (\$33 00-100) dollars.

And if within ninety days after the publication of this notice, you fail or refuse to contribute your said proportion of such expenditures as co-owner, your interest in said claim will become the property of the subscriber under said section 2324.

P. QUIGLEY, Pioche, Nev., Jan. 28th, 1929.
